IP-410

PAYPHONE

METAL SEMI
OUTDOOR
PAYPHONE

The IP-410 is specially built in a metal housing, armored handset, metal spiral cord and hook switch, this to prevent vandalism.

The IP-410 is a most advanced telephone, showing on its display the cost of each call, total call cost, dialled number and call duration. It incorporates an internal 12/16 KHz detector that operates the calculation method.

The IP-410 phone display shows the cost of the call, while talking. The pulse price can be set by the owner and can be changed as required.

The Liquid Crystal Display (LCD), displays up to 32 large digits, easy to read.

The IP-410 is a metal semi outdoor Public Telephone.
