

CALLING CARD TELEPHONE

OnBoard Modem* Supervision Software

The **IP-510-H** is a consumer-friendly Public Calling Card Telephone.

The **IP-510-H** is specially designed as an outdoor telephone. It can successfully withstand hot / cold / rainy weather, once it is placed in a properly designed telephone booth. The **IP-510-H** is specially built in a metal housing, equipped with armored handset, metal spiral cord and hook switch, to successfully resist vandalism.

The **IP-510-H** allows the user to place a call through a simple process by using a calling card. Access to provider is by pressing a fast memory-dial button on the keyboard. The user then needs only to dial the pin card number along with the desired destination number. The **IP-510-H** reduces dramatically the amount of unsuccessful calls. This results in considerable cost and time savings both for the provider and for the user.

The **IP-510-H** is equipped with a large LCD display on its front panel allowing 32 characters. Hence, the user is instructed how to easily use the phone.

The **IP-510-H** enables the provider to program the phone to allow or to disable dialing toll-free numbers.

The **IP-510-H** is equipped with additional 3 fast-dialing knobs for customer service and emergency numbers.

The **IP-510-H** can be controlled by a Supervision Center which can program the phone as requested (optional).

FEATURES:
