

# IP-510-PAL Calling Card Payphone

# IP-510-PAL

#### Product description:

Peryphon's IP-510-PAL Calling Card Payphone is specially designed for heavy-duty semi-outdoor use. It is wall-mounted and is constructed especially against vandalism and for a very long period of use. The IP-510-PAL Calling Card Payphone is technically advanced, sophisticated, modern and high-tech, designed to fulfill all the most modern and up-to-date requirements.

The IP-510-PAL automatically connects the caller to the service provider immediately after lifting the receiver. According to the announcement through the handset, the user dials the pin code of his/her calling card and after hearing that the card is valid he can place his call to any destination.

User dialing numbers are also seen on the LCD display on the front panel of the phone (optional).

The owner can also program the phone to allow dialing to toll-free numbers and emergency numbers and they do not require any calling card to be used.

#### Also there are 4 buttons on the keyboard for special functions:

1. Calling card customer service
2. Redial
3. Follow-on call
4. Earphone volume high/low

#### Features:
